	7. About 6:20 p.m. on 20 Movember, a train of about 23 boxcars with troops and bileting equipment was seen at the sour track at the field along highway No 103. Unlaoding operations were under way. A detail of about 55 men with black-bordered blue epaulets marched from the train to the Richthofen Kaserne across Hamburger Chaussee. At night the air force barracks installations were lighted as follows: Richthofen Kaserne about 80 percent, NSKK Kaserne about 75 percent, the barracks installation of the former Kraftfahrzeug-Lehrabteilung (driving school) about 75 percent, and building No 57 almost 100 percent.	
25X1A	Comment. After the transfer of the ground attack regiment from Doeberitz to Brandenburg-Briest in May 1953, no flying unit has been stationed at the field. The major parts of the barracks installations north of the airfield were unoccupied. With the shipments recorded in the present report, the air technical school of the Twenty-Fourth Air Army transferred from Strausberg to Doeberitz. For detailed information on the quartering buildings.	25X1A
